

Integrated ERP for Manufacturing, Distribution & Enterprise Operations

One Platform. One Truth. Total Control

Presented By:

Virtual Galaxy Infotech Limited

Industry Background

Manufacturing & Process Industries Today

- ✓ Highly complex and multi-stage operations
- ✓ Dependency on field data, machines, and manpower
- ✓ Need for speed, accuracy, and compliance
- ✓ Increasing pressure on efficiency and cost control

Key Industry Challenges

Common Operational Challenges

- ✓ Manual and disconnected processes
- ✓ No real-time production visibility
- ✓ Field and plant data not linked with ERP
- ✓ Inventory loss, wastage, and leakage
- ✓ Delayed and inaccurate decision-making

Limitations of Traditional ERP

Why Generic ERP Systems Fail?

✓ Industry needs a specialized ERP solution

Not designed for process industries

Require heavy customization

No field-to-factory connectivity

Limited mobile and machine integration

Poor adaptability to real production workflows
